Suminoe Co., Ltd.

2tec2 – Woven Vinyl High-Tech Flooring Carpet tile – Roll carpet Market Launch

High Tech Floor 2tec2
Vinyl carpet sample book

We are delighted to announce that Suminoe Co., Ltd started the marketing of 2tec2, woven vinyl high-tech flooring, on August 1st.

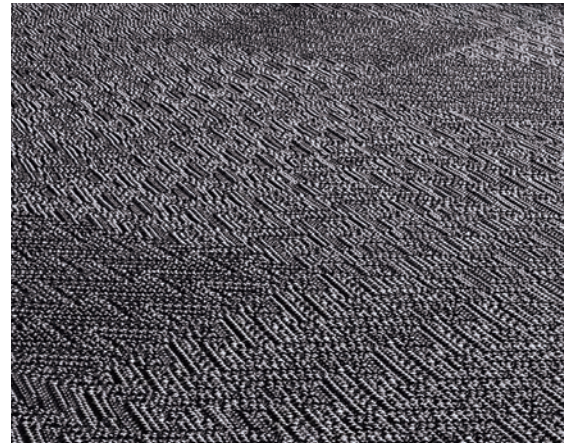

2tec2 is vinyl carpet woven with Jacquard weaving technology and composed by PVC coated glass fibers and PVC backing. It is available both in tiles and rolls.

Product features

- ① The woven fiberglass face yarn guarantees longer carpet durability and excellent dimensional stability.
- ② Each fiberglass yarn is coated with bicolored PVC, creating sophisticated patterns and a more natural look.
- ③ The employment of Jacquard weaving technology gives higher density and more structured woven look to the carpet.
