

“Domotex 2016 /The World of Flooring” Thank you for visiting Suminoe booth

Booth number **Hall 6 / Stand No G21**

Suminoe booth display image

Suminoe Co., Ltd had an exhibition at “Domotex 2016” held for four days from January 16th to 19th, 2016 at Hannover Fairground in Germany. With the theme of “Resources for the Future”, we presented our carpet tiles with ECOS, Suminoe’s innovative recycled PVC backing, and Cushion Back Series, carpet tiles with recycled polyester comfy lay backing.

Articles showcased at the exhibition.

- “ECOS” collections

Carpet tiles with recycle PVC backing available with nylon, polyester and polypropylene face yarn.

- ECOS EX7000

Pioneering product of new level of sustainability concept, with the combination of ECOS and Econyl, 100% regenerate Polyamide yarn, reaches 83% of recycle content and allows for a reduction of 44% of carbon dioxide emissions in the manufacturing and transportation process relative to conventional products.

- CUSHION BACK SERIES

Designed with a particular attention to the environment, Suminoe’s Cushion back is made for its 83% of recycled polyester fiber from PET bottles. Compared to conventional PVC backing, it ensures pleasant underfoot sensation, longer carpet tile durability, higher sound absorption, and thermal insulation.
